

1.Negotiation Questions

I felt little bit tough when it comes to negotiate the salary

I didn't get enough words to present

Repeated the same words again and again

When answering these we should come up with new keywords that should attract the HR and the skills should be shown to them well.

2.why you choose your domain as MERN stack?

I didn't prepare enough for the solution and i got blank at the time.the first 30 sec is not good,but later i came up with that.

To answer these type of questions we can come up with the features of mern,and what they can do compared to other stacks.we should show the advantages of stack
