3 Step Outbound Method

Step 1- Research everything about your target audience/potential clients
*As a freelancer who **..[Your Service here]..** with 5 years of experience, give 10 examples of detail client avatar.*
Do this manually – Use LinkedIn to conduct your research

Step 2 – Use LinkedIn Profile Scraper to create personalized Emails
 Act as professional **..[Your Service here]..** freelancer with years of experience & craft a unique & creative email for potential client and here are client details, name -

Note – Experiment a lot with this prompt & give brief client details to get best output

Step 3 - Set a Goal to get your initial clients
This is called as Number Game –
*If you DM 100 potential clients, you will win 1 out of it
 But if you reach only 10 and give-up, game is over for you.*
